To Lake Camanche Wet & Dry Storage Customers Clarification of Year 2012 Rates and Facilities Improvements

Recently information about 2012 rates was distributed while Camanche Recreation Company was working with EBMUD to clarify rate increases for the coming year. All rates had been established prior with some of the increases tied to the planned installation of a new courtesy dock and covered slips at the South Shore Marina and a new covered slips at the North Shore Marina for the 2012 season.

Due to the slow pace of engineering the new North Shore covered slips will not be in place for the coming 2012 year. Things are progressing quicker with the South Shore Marina, with a new courtesy dock and new covered slips. We are still hoping to see them drop in the lake by late Spring 2012.

Rates for 2012 at the North Shore Marina Open Slips and Covered Slips will be at the same price as they were in 2011.

Rates for 2012 at the South Shore Marina for Covered Slips for guest paying now will continue to be charged at the 2011 rates. Pending timing of the new docks, a prorated supplemental charge may be billed once the new covered slips are in.

Please follow any renewal instructions contained in the previous letter. This adjustment in price increases effects only those items specifically noted above.

We are anxious to provide or guest with the new docking facilities as soon as we can get them engineered and built. Our intent is to do what is right concerning rates and are sorry for any inconvenience it may have caused.

As a way of saying thanks for letting us service you if you renew your slip rental or are a first time renter please bring this original letter in to our gate house or marina store for a one time half off rate on a all day pontoon boat rental or a one day cottage rental. This offer needs to be redeemed March 25, 2012.

Sincerely,

Brian Bressel
General Manager, Camanche Recreation Company
